BETTER TEXTILE SOLUTIONS

innova.com.au

Terra Nova Neo (TNN) is our premium commercial upholstery range because it is as soft and supple as genuine leather, whilst still providing commercial grade stain and wear resistance.

After 10 years of success in the Australian market place, it was time for a refresh and to offer new colour options to give greater choice.

This booklet highlights where we have drawn inspiration and why we believe our new colour palette now meets the needs of an ever changing commercial environment.

For those colours that we won't be keeping in stock, please visit our "Special Order" page 7 for further details.

TERRA NOVA NEO IRIS

Our new colour IRIS, gives our Terra Nova Neo (TNN) range its first deep rich natural blue.

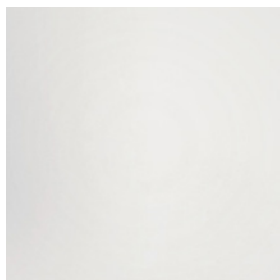

2019 is the year of dark, deep blues accented against natural surroundings in furniture upholstery and interior design.

Create an oasis of calm and tranquility with Iris.

TERRA NOVA NEO CLOUD

Let white take flight with our second new TNN colour CLOUD.

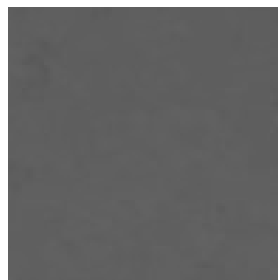

Inspired by the white dove, let crisp clean white tones provide your design with a sophisticated look.

TERRA NOVA NEO ASH

The dark greys of our natural surrounds provide us with majestic images of granite, rock and stone.

Getting back to Earth and nature means focusing on natural tones like our lovely new dark grey colour ASH.

TERRA NOVA NEO JADEITE

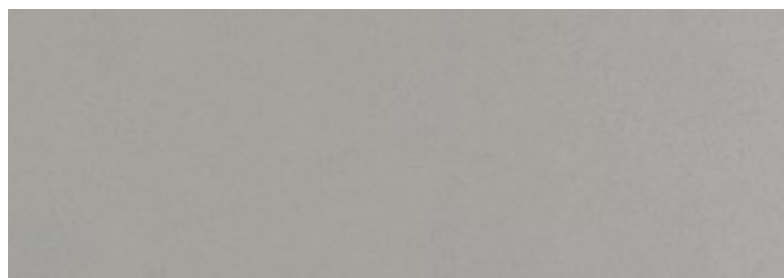

With beautiful teal aspects our new colour JADEITE represents blue and green hues ever present on our planet. It is an audacious colour to be used as a highlight in any commercial setting.

TERRA NOVA NEO FOAM

FOAM was inspired by the colour of the ocean on an overcast day. As a warm soft grey it is muted enough to let other colours steal the show, whilst still promoting a meditative and thoughtful environment.

SPECIAL ORDER COLOURS

terra nova *Neo*

Special order means the flexibility of colour choice.

Terra Nova Neo began with 26 designer colours. The range has been refreshed to include the 5 new colours showcased in this booklet. Of the 10 colours that will no longer be stocked from 2019, we will special order these colours in for you, on request, provided the order quantity exceeds one roll (min. 30 metres). This gives you, our customers, peace of mind.

Can't find the colour you are looking for? We can match any colour. Talk to one of our friendly sales representatives today.
